

Dear Parents,

I know some of you have asked why I have been out of the classroom this week. This week is one of two monitoring weeks planned for this term. The next one will be in July. I am returning to normal classroom duties next week.

SPORTS DAY

Sports day is approaching fast. Last year PFRS supplied refreshments. We would like to do the same this year but we do need people to make and donate cakes. We also need people to volunteer to run the stall and help with washing up. There will be a rota so you aren't stuck in there all day. We cannot run these events without your help.

If you are willing to help please complete and return the slip below.

SEPTEMBER

As some of you will be aware the number of pupils attending the school has risen so we have appointed two new teachers to start in September. They will be full time class teacher. The children will be able to meet them on Moving Up day later this term as they will both be in school that day.

Mr Stevens used to be an electronics engineer. He is very keen on ICT and Maths and all things technological. He also likes football and supports Arsenal- but then you can't have it all can you?

Mrs Angela Chappell is a very experienced teacher. As well as a 'real passion' for maths she is a musician and is keen to develop the music of the school further.

We are really looking forward to beginning work with them in September.

M Gibbs

I will donate a cake for Sports Day

I am able to help serve teas and coffees on Sports day.
